14 January 2022

Opening of registration for IFAJ2022 congress in Denmark

Danish Food and Agricultural Journalists are proud to present the IFAJ Congress 2022 – Smarter Farming and Food Production for Green and Sustainable Growth.

It is now possible to register by following the link below.

- The main IFAJ 2022 congress will take place in Denmark from June 27 to July 3 in Vingsted.
- The pre-congress tour will take place from June 24 to June 27 in Copenhagen.
- The post-congress tour will take place from July 3 to July 7 in the Faroe Islands.

The main congress will consist of 20 excursions over four days. For more information, please check out the attached 31-page PDF document.

In addition to excursions, there will be several workshops, for example about freedom of the press, and cooperation between ag-journalists across borders.

On the VIP Day, we have invited a Danish minister, a US government ag-official, an EU commissioner and directors of international organisations related to agriculture. The topic is: *How do we produce feed, food and energy for 10 billion people in 2050 and at the same time secure a healthy environment, biodiversity and climate?*

We have also arranged a partner day where you can see new technology, attend seminars, and interview CEOs, researchers and more.

The main congress will take place at the hotel and conference centre Vingsted, located near Billund Airport. All participants can be accommodated at the conference centre.

Register now, pay later

With regards to the Covid19 situation, the forecast for Denmark is that it will peak in late January and then decline. At present, fully vaccinated people can travel to Denmark from a large number of countries, among others Schengen and OECD countries, without isolation. The authorities expect the situation to be much better in June/July. However, right now we only ask for registration for the congress. We will ask for payment later, when the situation is clearer.

Based on the above, we now ask IFAJ to send invitations to the congress to all guilds around the world.

Registration for the congress can be done here:

<https://quanglo.wufoo.com/forms/registration-for-ifaj-2022-congress-in-denmark/>

The registration form consists of seven easy steps. The last step is payment with your credit card.

- Please do not pay now but leave the site when you have clicked "Submit" in step 6.
- After the Submit click you will get an e-mail with a confirmation of your registration for the IFAJ 2022 Congress.

Obs! Registration for the post-congress tour to the Faroe Islands must be done separately. Please see the attached programme and form.

Sincerely yours,

The Danish guild, steering committee and partner group

Frederik Thalbitzer

Chairman of Danish Food and Agricultural Journalists

Smarter Farming and Food Production for Green and Sustainable Growth

Denmark is among the leading nations in ensuring a better, greener and more sustainable future * **Legislation**, consumer demand and the 17 UN Sustainable Development Goals are all a major part of a new platform for the whole farming, agritech and food cluster * **On top of science**, we achieve results that benefit Food Quality, Animal Welfare, Biodiversity, Bioresources, Nature, Environment, Carbon Footprint, Food Waste, Work Environment, Housing and Production * **The cluster** is taking the lead in setting goals - not only to live up to the demands from society, but also to document results. * **To do it smarter**, it takes innovation, new technologies, new partnerships in the value chain and new ways of collaboration * **During the congress**, we will show you how the cluster is delivering on our promises
